

100 Hour Course in Refraction and Advanced Ophthalmic Optics!

We are now forming our 5th training class in as many years. If you need references from former students, please ask.

This "Skill Development Training" consists of over 40 hours of distance learning and three weekends of classroom and hands-on training over a three month period. The course offers very comprehensive refraction training and will improve your ability to trouble shoot vision problems caused by eyewear, by improving your knowledge of Ophthalmic Optics. Upon completion you will receive a certificate stating your new professional skill level.

The graduates of this training are invited to help teach refraction and advanced Ophthalmic Optics to the new Ophthalmology Residents of both the University of Texas Southwestern Medical Center in Dallas and the Baylor Medical Center in Houston each summer.

The Registration Period for the 100 Hour Course in Ophthalmic Optics has begun. Make your deposit of \$150.00 as soon as possible to assure your place in the next class. **As soon as we have 6 students that have made their REFUNDABLE DEPOSIT of \$150.00 (10% of the \$1500.00 full cost of the course) we will set the dates of the course.** All books and fees are included in the cost of the course. All participants in the course will also receive a current copy of the "Virtual Phoropter CD". (a \$350 value)

This is an early notification to you our members and friends. Your education is the best investment that you can ever make. Your education is the only thing in life that can never be taken away from you. Once you have learned a new skill, it is yours forever. How you apply your new skill will be up to you.

If you are a member of ROATx, you will receive a twenty-percent (20%) discount on the cost of the course.

The [Texas Ophthalmological Association](http://www.txeyenet.org) is assisting us in getting the word out by putting information on their web site calendar (www.txeyenet.org). We have already had over five individuals inquirer about when we will start accepting registrations.

Your professional association can accept the following credit cards: Visa, Master Charge, Discover, and American Express. We believe that education is the most important investment that a professional can make in themselves.

This Refraction and Advanced Ophthalmic Optics Course is being taught at our associations training center in Austin. (1308 West Anderson Lane, Austin, TX 78757)

To register for this excellent training, please email us your proof of your meeting the prerequisites, personal information, and payment information (if credit card we must have number and expiration date) or send your deposit. We do have limited space due available to equipment limitations. The sooner you register, the sooner you will be able to start your training and receive the training CD "Virtual Phoroptor" and the 40 Hours of Distance Learning materials.
